

Job Title: Intern Data Analyst

Job Description:

We are seeking a highly motivated and analytical individual to join our team as an Intern Data Analyst. As a Data Analyst intern, you will work closely with our data team to collect, analyze, and interpret large volumes of data. You will assist in developing reports, conducting data research, and supporting data-driven decision-making processes. This internship will provide you with hands-on experience in data analysis and an opportunity to contribute to real-world projects.

Responsibilities:

Collect and organize data from various sources, ensuring data quality and integrity.

Analyze and interpret data using statistical techniques and tools.

Assist in developing reports and visualizations to communicate insights and findings.

Conduct data research to support business needs and answer specific questions.

Collaborate with team members to identify opportunities for process improvement.

Assist in data cleansing and preparation tasks.

Learn and apply data analysis methodologies and tools.

Present findings and recommendations to stakeholders.

Requirements:

Currently pursuing a degree in a relevant field such as Data Science, Statistics, Mathematics, or a related discipline.

Strong analytical and problem-solving skills.

Proficiency in data manipulation and analysis using tools such as Python, R, or SQL.

Familiarity with data visualization tools like Tableau or Power BI is a plus.

Solid understanding of statistical concepts and techniques.

Excellent attention to detail and ability to work with large datasets.

Strong communication skills, both written and verbal.

Ability to work independently and collaboratively in a team environment.

Eagerness to learn and apply new skills and knowledge.
